

## Inquiry to Become Contributory

Changing your ATRS member withholding status from Noncontributory to Contributory occurs on a July 1 in almost all instances. Contributory members have 7% of gross salary withheld and remitted to ATRS each time you are paid by your ATRS employer. This contribution is tax-deferred. If this is something you are considering, ATRS will be happy to provide counseling on how this affects your retirement benefit.

A completed **Irrevocable Contributory Election Form** is required to make the change, and must be completed by both the member and the ATRS employer before being returned to ATRS.

By remitting this inquiry form, ATRS will begin the process to change your status. You may mail or fax this request to ATRS using the information provided above.
